PROFESSIONAL SUMMARY

Senior QA Automation Engineer with 9+ years of experience in software quality, from manual and API testing to designing scalable automation frameworks in TypeScript with Playwright and Cypress. Experienced in web, API, and mobile automation, load and performance testing with k6 and JMeter, Lighthouse and Core Web Vitals audits, and integrating automated suites into Jenkins and Azure DevOps CI/CD pipelines. Applies AI-powered tooling to accelerate test creation and maintenance. ISTQB Certified Tester.

TECHNICAL SKILLS

Test Automation	Cypress, Playwright, Mobile Appium, REST API Testing, Postman, AI-Driven Testing
Performance Testing	JMeter, k6 Load Testing, Lighthouse, Core Web Vitals
CI/CD & DevOps	Azure DevOps, Jenkins, Custom Pipelines, Git
AI & Development	Next.js, TypeScript, JavaScript, Email Automation, OpenAI API, AI Agents
Additional	Selenium, TestNG, Maven, Swagger, Experitest, SQL, MongoDB

PROFESSIONAL EXPERIENCE

Sr. QA Automation Engineer · LegalMatch	Apr 2023 – Present
- Spearheaded test automation for the Law Library, Attorney Cases, and Client Page Dashboard projects using Playwright and Cypress, ensuring comprehensive coverage of critical user workflows. - Automated web UI testing for case posting and client dashboard interactions, ensuring seamless experiences across browsers and devices. - Conducted performance testing on Law Library pages and Client Dashboards with k6, identifying and resolving bottlenecks to improve responsiveness and load times. - Designed modular, scalable automation frameworks in TypeScript for efficient maintenance and future-proof testing. - Integrated automated suites into Jenkins CI/CD pipelines, reducing deployment errors and improving delivery speed.	
QA Engineer · Reekoh	May 2022 – May 2023
- Reviewed technical specifications and diagrams to align testing strategies with project requirements. - Developed automated test cases with Cypress and maintained regression test scripts. - Performed API testing with Postman and Swagger, ensuring compatibility with external vendor software. - Conducted mobile automation testing for workforce management applications. - Researched new testing methodologies and tools to strengthen the team's capabilities.	
Quality Assurance Analyst · MicroSourcing	Mar 2021 – May 2022
- Designed and implemented test plans adhering to organizational quality standards. - Automated regression test suites using Selenium. - Conducted mobile automation testing for workforce management applications.	

Solutions Developer (QA) · Lenovo PCCW Solutions

Mar 2017 – Mar 2021

- Analyzed requirements, wrote and executed test cases, and reported defects by severity with post-fix regression testing.
- Designed and implemented automation scripts using Cypress, Selenium, Maven, and TestNG.
- Conducted end-to-end mobile and cross-browser testing with Appium and Experitest.
- Executed REST API CRUD testing (GET, POST, PUT, DELETE) with Postman.
- Validated XML/JSON responses, status codes, and database integrations (SQL and MongoDB).
- Collaborated with developers to investigate and resolve issues.

EDUCATION

BS Computer Engineering · Surigao del Norte State University

2006 – 2011
